

NAME

XMMS – an audio player for X.

SYNOPSIS

xmms [-h] [--help] [-n <session>] [--session=<session>] [-r] [--rew] [-p] [--play] [-u] [--pause] [-s] [--stop] [-f] [--fwd] [-e] [--enqueue] [-m] [--show-main-window] [-v] [--version] [filename]...

DESCRIPTION

XMMS is the X Multimedia System. It is used to play audio and other kinds of media files. By default XMMS can play MPEG audio, Ogg Vorbis, RIFF wav, most module formats, and a few other formats. XMMS can be extended through plugins to play a number of other audio and video formats.

OPTIONS

XMMS accepts the following options:

- h, --help**
Show summary of options.
- n, --session**
Select XMMS session (Default: 0).
- r, --rew**
Skip backwards in playlist.
- p, --play**
Start playing current playlist.
- u, --pause**
Pause current song.
- s, --stop**
Stop current song.
- t, --play-pause**
Pause if playing, play otherwise.
- f, --fwd**
Skip forward in playlist.
- e, --enqueue**
Don't clear the playlist.
- m, --show-main-window**
Show the main window.
- v, --version**
Print version number and exit.

SKINS

XMMS supports WinAmp style skins. Skins may be stored in either archived (.zip, .wsz, .tgz, .tar.gz, or .tar.bz2) or unarchived format. XMMS looks for skinfiles in /usr/share/xmms/Skins, ~/.xmms/Skins, and locations specified by the **SKINDIR** variable.

KEYBINDINGS

Global keybindings for XMMS:

z	Previous song
x	Play
c	Pause
v	Stop
b	Next song
l	Play file
j	Jump to file
r	Toggle Repeat

s	Toggle Shuffle
Shift + l	Play directory
Control + l	Play location
Control + p	Preferences dialog
Control + v	Visualization plugin dialog
Control + r	Time remaining
Control + a	Always on top
Control + w	Winshade mode
Control + d	Doublesize mode
Control + e	Easy move
Control + j	Jump to time
Control + z	Start of list
Control + n	No Playlist Advance
Control + 3	File info dialog
Control + Alt + w	Toggle Equalizer winshade mode
Shift + Control + w	Playlist winshade mode
Alt + w	Hide/show mainwindow
Alt + e	Hide/show playlistwindow
Alt + g	Hide/show Equalizer
Alt + s	Skin selecting window

Main window specific:

Arrow key up	Volume up 2%
Arrow key down	Volume down 2%

Arrow key up	Volume up 2%
Arrow key down	Volume down 2%
Arrow key right	Balance 4% to right
Arrow key left	Balance 4% to left

FILES

~/xmms/config	Users xmms configuration.
~/xmms/xmms.m3u	Default playlist usually loaded on startup.
~/xmms/gtkrc	Users set of xmms-specific GTK config settings. Options such as widget color and fonts sizes can be set here.

- `~/.xmms/menurc` Users set of keybindings.
- `~/.xmms/Skins, /usr/share/xmms/Skins`
Default locations where XMMS should look for skinfiles.
- `~/.xmms/Plugins` Location of user installed plugins.

ENVIRONMENT

- SKINDIR** Colon separated list of paths where XMMS should look for skinfiles.
- TARCMD** Tar command supporting GNU tar style decompression. Used for unpacking `gzip` and `bzip2` compressed skins. Default is `tar`.
- UNZIPCMD** Command for decompressing zip files (skins). Default is `unzip`.

OTHER INFO

The webpage for XMMS is at <http://www.xmms.org>. Here you can find info about XMMS, download the latest version, plugins, and skins.
